

'Payroll tax credit' form

Name _____

Client number _____

Date of commencement _____

What is payroll tax credit?

Payroll tax credit reduces the amount of payroll tax/social insurance contributions deducted from your pension. This means that if payroll tax credit is applied you will pay slightly less tax. In principle, everyone is entitled to payroll tax credit, even if they live in a foreign country.

N.B.

Payroll tax credit can only be applied by one benefit agency or employer. If you have another income to which payroll tax credit is already being applied, you must select the 'does not' option on this form.

Are you using this form to notify us of a change?

If so, please also state the date on which the change comes into effect.

I request that Philips Pensioenfonds

does **does not**

apply payroll tax credit to my pension.
