S-Other Social/Human Capital Issues	12	2,30%
S-Supply Chain	20	3,83%
S-Talent and Culture	90	17,24%

*Engagements include multiple company meetings during the year with the same company. Most engagement conversations cover multiple topics.

On January 1, 2025, BlackRock Stewardship increased the level of detail reported on certain engagement topics captured while discontinuing other sub-topics that were seldom used. This provides more relevant information and further transparency to our clients. The report now reflects the improved transparency in any engagement post January 1, 2025.

For more information on our engagement topics see the "Enagement Priorities & Topics" tab.

BlackRock Stewardship Engagement Priorities

Each year we prioritize our work around engagement themes to encourage sound governance practices and deliver sustainable long-term financial performance for clients.
Our approach emphasizes direct dialogue with companies.

Board Quality and Effectiveness - The performance of the board is critical to the financial success of a company and the protection of shareholders' interests over the long-term.

Strategy Purpose and Financial Resilience - As one of many minority shareholders, BlackRock does not direct a company's strategy or its implementation. BlackRock Stewardship engages on long-term corporate strategy, purpose, and financial resilience, to understand how boards and management are aligning their business decision-making with the company's purpose and adjusting strategy and/or capital allocation plans as necessary as business dynamics change.

Incentives Aligned with Value Creation - Executive compensation is an important tool to drive long-term financial value creation by incentivizing and rewarding the successful delivery of strategy goals and financial outperformance against peers. It is helpful when companies make clear in their disclosures the connection between compensation policies and outcomes and the financial interests of long-term shareholders.

Climate and Natural Capital - BlackRock Stewardship engages with companies to better understand their approach to, and oversight of, material climate-related risks and opportunities, as well as how they manage material natural capital impacts and dependencies, in the context of their business model and sector.

Company Impacts on People - In BlackRock Stewardship's experience, companies that invest in the relationships that are critical to their ability to meet their strategic objectives are more likely to deliver durable, long-term financial performance. By contrast, poor relationships may create adverse impacts that could expose companies to legal, regulatory, operational, and reputational risks.

BlackRock Stewardship Engagement Topic Overview

Topic	Definition
E-Biodiversity	How a company interacts with and impacts various living species and their habitats. This includes managing material risks and minimizing impacts on native species and their environments.
E-Climate Risk Management	How a company approaches material climate-related risks and opportunities. This includes its climate-related risk disclosures, transition risks, physical risk assessments, investments in clean energy, and greenhouse gas reduction targets, as applicable.
E-Deforestation/Land Use	How a company approaches its impacts and dependencies on land and forests. This includes managing material deforestation risks and ensuring sustainable land use practices, as applicable.
E-Other company impacts on the environment	How a company approaches any other material environmental-related topics that do not fit into other categories.
E-Waste	All aspects of a company's approach to minimizing waste, managing waste, and site remediation.
E-Water	All aspects of a company's approach to water use, conservation, and dependencies on water resources.
G-Board Commitments/Attendance	How a company approaches board members' commitments and attendance.
G-Board Composition	How a company approaches board composition, including how the collective experience and expertise of the board, as well as the particular experience, perspective, and skill set of individual directors, aligns with the company's long-term strategy and business model.
G-Board Effectiveness and Director Qualifications	All aspects related to board oversight, director qualifications, board committees, board refreshment, conflicts of interest, audit oversight, and board policies.
G-Board Independence	How a company approaches the independence of board members.
G-Business Oversight/Risk Management	All aspects related to board and management oversight and disclosure of material business model risks, including competition, reputational and legal risks, lobbying disclosure, and audit-related concerns, among others.
G-Compensation & Remuneration	All aspects related to the structure and magnitude of compensation plans, pay for performance alignment, equity compensation, director pay, stock purchase plans, clawback proposals, golden parachutes, and option exchanges.
G-Corporate Strategy (Disclosure/Governance)	All aspects related to the articulation, governance, and oversight of a company's corporate strategy, purpose, long-term strategic goals, capital allocation, performance metrics, challenges, and opportunities.
G-Cybersecurity and Data Privacy	All aspects related to the governance and risk management of cybersecurity threats and data privacy issues.
G-Executive Management and Succession Planning	How a company approaches executive leadership, succession planning, and the board's oversight of performance management.
G-Governance Structure	All aspects related to shareholder rights, corporate form, board structure, leadership, voting standards, IPO governance, and corporate policies on governance issues.
G-Other Governance Issues	How a company approaches any other material governance-related topics that do not fit into other categories.
G-Sustainability Reporting	How a company approaches updates and/or addresses investor questions related to reporting requirements in regulatory jurisdictions or voluntary reporting initiatives.
G-Technology Deployment and Governance/Disclosure	All aspects related to the governance and risk management of investing in or deploying new technologies, including, but not limited to, AI and quantum computing.
S-Business Ethics and Integrity	All aspects related to a company's business ethics and integrity efforts, including, but not limited to, interactions with suppliers and customers, whistleblowing, anti-bribery and corruption, embezzlement, product integrity, and marketing practices.
S-Community Relations	How a company interacts with local communities where they operate.
S-Freedom of Association	All aspects related to how a company engages with unions on job benefits, working conditions, wages, and worker organization.
S-Health and Safety	How a company approaches the health and safety of employees and contractors, including protections from adverse safety impacts including, but not limited to, spills, leaks, and fires.
S-Human Rights	How a company approaches potential or actual adverse human rights issues, including the use of forced labor or child labor, among others.
S-Indigenous Peoples Rights	All aspects related to a company's relationships with Indigenous communities, including, but not limited to, the protection of cultural heritage sites and access to resources.
S-Other Social/Human Capital Issues	How a company approaches any other material social-related topics that do not fit into other categories.
S-Supply Chain	All aspects related to material risks and opportunities in corporate supply chains, including mitigating risks, disruptions, transparency, and traceability.
S-Talent and Culture	All aspects related to current workforce training and development needs, as well as skillset required to support the company's long-term strategy, including attracting and retaining talent.
